

BALANCE ON HAND REPORT

Report Generated: October 26, 2023 at 08:00 AM

Facility: All Warehouses (Consolidated)

Generated By: Inventory Management System

1. Introduction

The following report details the current Balance on Hand (BOH) for all active SKUs across our storage facilities. This data is critical for understanding our current asset position, identifying stockouts, and providing the baseline data required for calculating our Economic Order Quantity (EOQ) and Safety Stock parameters. Note that damaged goods reported recently have been deducted from these totals.

2. Current Inventory Levels

SKU	Description	Category	Warehouse Location	Qty on Hand	Unit Cost	Total Value	Status
WID-001	Standard Widget	Hardware	Main - Aisle 1	4,500	\$2.50	\$11,250.00	Healthy
WID-002	Premium Widget	Hardware	Main - Aisle 1	1,200	\$4.00	\$4,800.00	Healthy
WID-003	Cardboard Packaged Widget	Hardware	Main - Aisle 2	155	\$3.00	\$465.00	Low Stock
GIZ-101	Gizmo Model A	Electronics	Annex - Bin 14	85	\$15.00	\$1,275.00	Critical
GIZ-102	Gizmo Model B	Electronics	Annex - Bin 15	450	\$22.00	\$9,900.00	Healthy
GIZ-202	Fragile Glass Gizmo	Specialty	Main - Safe Room	10	\$45.00	\$450.00	Critical
COG-999	Industrial Cog	Hardware	Main - Bulk Storage	8,000	\$1.25	\$10,000.00	Overstock
BOX-404	Shipping Boxes	Supplies	Main - Rack 9	1,800	\$5.00	\$9,000.00	Healthy

3. Inventory Valuation Summary

- **Total Hardware Value:** \$21,715.00
- **Total Electronics Value:** \$11,175.00
- **Total Specialty Value:** \$450.00
- **Total Supplies Value:** \$9,000.00
- **Grand Total Inventory Value:** \$42,340.00

4. Notes and Observations

- **Critical Stock Levels:** SKUs GIZ-101 and GIZ-202 are currently below their minimum threshold limits. Immediate replenishment action is required. The recent forklift incident significantly impacted GIZ-202 levels.
- **Low Stock:** WID-003 is approaching the reorder point, exacerbated by the recent water damage write-off.

- **Overstock:** COG-999 is currently at 8,000 units. Given historical demand, this represents a 14-month supply. We should halt further orders and investigate potential bulk discount sales to reduce holding costs.
- This Balance on Hand data will be directly fed into the EOQ model to generate the upcoming draft Purchase Orders.
