

DAMAGED INVENTORY LOG

Report Date: October 26, 2023

Location: Warehouse A, Sectors 2 & 3

Reported By: Jane Smith, Inventory Control Specialist

1. Executive Summary

This document outlines the inventory items that have been identified as damaged, defective, or otherwise unsellable during the routine cycle count conducted this week. It is imperative that these items be removed from the active "Balance on Hand" to ensure accurate stock levels, prevent fulfillment of defective goods to customers, and allow for proper accounting write-offs or return-to-vendor (RTV) processes.

2. Detailed Damage Report

The following registry details the specific incidents and inventory items identified as damaged or compromised:

SKU / Item	Incident / Cause	Qty	Est. Loss	Action Required
WID-003 Cardboard Packaged Widgets	Water Damage (Sector 2)	45 units	\$135.00 \$3.00/unit	Complete write-off and disposal. Items cannot be salvaged due to metal corrosion.
BOX-404 Corrugated Shipping Boxes	Water Damage (Sector 2)	200 bundles	\$1,000.00 \$5.00/unit	Write-off and send to recycling. Cardboard structurally compromised.
GIZ-202 Fragile Glass Gizmos	Forklift Accident (Sector 3)	30 units	\$1,350.00 \$45.00/unit	Safe disposal of broken glass. File incident report with warehouse safety.
CHM-888 Industrial Lubricant	Expired Goods (Quality Control)	12 gallons	\$300.00 \$25.00/unit	Hazardous waste disposal according to EPA guidelines.

3. Financial Impact Summary

Total Units Damaged/Lost: 287 units

Total Estimated Financial Loss: **\$2,785.00**

Note: Financial losses are estimated based on standard unit costs and are subject to final accounting review upon disposition approval.

4. Approval for Disposition

The items listed above are requested to be removed from the active inventory ledger. By signing below, the warehouse manager and the finance controller approve the write-off of these assets and the subsequent physical disposal or recycling as noted.

Warehouse Manager: _____ **Date:** _____

Finance Controller: _____ **Date:** _____
