

Synthetic Document 1: Q4 Holiday Baking Planogram (POG)

Purpose: This document serves as the visual and data-driven blueprint for the shelves. The RAG system reads this to understand exactly how many items *should* fit on the shelf (Shelf Max) and where they belong, allowing the AI to calculate if a replenishment order is physically possible.

Document Title: Q4 Planogram - Aisle 4 (Holiday Baking)

Effective Date: Oct 1, 2026 - Dec 31, 2026

Facility: DeCA Region 3, Store #142

Section A: Layout & Capacity Guidelines

All contractor and government personnel must adhere to the following shelf allocations. Unauthorized "cut-ins" (placing items in unassigned spaces) are strictly prohibited.

Item ID	Item Description	Shelf Location	Facings	Shelf Max Capacity
10045	Gold Medal Flour (5lb)	Sec C-3, Bottom	4	48 Units (2 Cases)
10046	Store-Brand Sugar (4lb)	Sec C-4, Bottom	5	100 Units (5 Cases)
10047	Libby's Canned Pumpkin	Sec B-1, Middle	3	36 Units (1.5 Cases)
10048	Carnation Evaporated Milk	Sec B-2, Middle	4	48 Units (2 Cases)

Section B: Restocking Rules

1. Items must be pulled forward to the front edge of the shelf.
2. If Balance on Hand (BoH) exceeds Shelf Max Capacity, excess inventory must be labeled "Back-stock" and staged on Pallet Row B in the warehouse.
