

Division 01 General Requirements

Practice file: Cedarline Training Hall, job SYNTH-HALL-01.

Original text. Not a real project and not a platform export.

Section 01 33 00 Submittal Procedures, practice language for this job only.

Number submittals SB-01, SB-02, and so on. Do not reuse a number after a rejection. Send a new revision on the same number.

A revise-and-resubmit mark means the package is not accepted. Replace the missing pages and send the revision.

Section 01 26 00, request for information. Number them RFI-001 and up. One question per number.

An answered RFI that says work is waiting stays in force until the linked submittal is accepted. Closing the RFI in a spreadsheet without that acceptance is not enough.

Roles on this practice job: project engineer asks, architect of record answers, superintendent does not rewrite the answer in the field.

Files: keep the PDF of the RFI next to the register row. The row is the index. The PDF is the text a search can quote.

Cost and schedule files in the artifact folder are planning copies. They do not move money and they do not move dates by themselves.
